Professional Experience

Graphic Designer

Bumihayat Printing | April 2026 – Present

- Collaborate with sales teams and clients to transform business requirements into effective visual designs.
- Design apparel graphics including sublimation jerseys, jackets, and custom merchandise for clients and events.
- Assist in operating and preparing files for sublimation printing, ensuring designs are optimized for production.

Graphic Designer

OMAF Apparel | February 2025 – March 2026

- Transform ideas into standout visual designs for apparel, branding, and event experiences.
- Design apparel from the ground up—creating original jerseys, corporate shirts, and merchandise tailored for university events, school sports, and brands.
- Craft bold, high-impact sublimation designs that combine creativity with functionality. Develop engaging marketing visuals that bring campaigns and brand stories to life.
- Curate trend-driven product catalogues that enhance client presentations and sales impact.
- Contribute to fun run events by managing visual elements, designing race kits, and supporting execution on the ground.
- Maintain strong visual consistency while evolving creative assets across multiple projects.
- Deliver production-ready artwork optimized for high-quality sublimation printing.

Information Technology Intern

Asia Debut Technology Sdn Bhd | March 2024 - June 2024

- Collaborated with cross-functional teams to ensure seamless integration and implementation of features.
- Planned and executed data migration from legacy systems to new platforms, ensuring data integrity.
- Identified, prioritized, and resolved software bugs to maintain application stability.
- Developed and deployed new features based on stakeholder requirements to enhance user experience.

Information Technology Intern

Pejabat Pengarah Tanah dan Galian Terengganu | July 2020 - February 2021

- Provided technical assistance to staff, troubleshooting and resolving hardware issues.
 - Designed and developed a modern system to replace outdated software, improving efficiency and scalability.
-

Certifications & Achievements

- Proficient in Java, Python, and C++ programming languages.
 - Experienced in Unity and Blender for multimedia development.
 - Demonstrated ability to handle end-to-end data migration projects.
 - Proficient in Adobe Creative Suite (Photoshop, Illustrator) for apparel and marketing design.
 - Experienced in apparel graphics and sublimation printing workflows, including print-ready file preparation.
-
